

Dear All,

It is with great pleasure that we inform you about our "Qobuz Connect" certification.

More and more of you, La Rosita streamer users, have told us that from now on, you only listen to your music via an online server. In Europe, the most popular and richest server is Qobuz, as we have seen from you. In order to remain in symbiosis with the market, we have carried out many comparative listenings and it seems to us that the Qobuz Connect protocol is incredibly musical, articulate, and surprisingly fluid. No need for intermediate elements or processing, it is the Qobuz software, thanks to its unique protocol, that transmits the file to the streamer.

All you need is a computer tablet or smartphone to send your music and follow its scrolling directly from the tablet or smartphone

From now on, La Rosita streamers can be updated to be compatible with Qobuz Connect

Of course all our devices are and remain too

Roon Ready

Here are the prices of our updates next page

- Gamma HD to Gamma HD Qobuz Connect => **2400 euros**
- Delta HD to Delta HD Qobuz Connect => **1650 euros**
- Quark HD Streamer to Quark HD Streamer => **1290 euros**

For those who use a La Rosita DAC with a computer and a USB link, we can upgrade all "La Rosita" DACs to "La Rosita Qobuz Connect" Streamers.

Black Hole II to Gamma HD Qobuz Connect => **2600 euros**

Neutron Star to Delta HD Qobuz Connect => **1800 euros**
